

UCSD ML HACKATHON:

Detecting anomalies in scientific data

*Hybrid species
discovery*

*Gravitational
wave detection*

*Climate event
identification*

Sat.-Sun. Jan 11-12

Final submissions due Thurs. January 17.

(Location TBA on website below)

**> All experience
levels welcome!
Just bring your
laptop!**

**> Learn from experts to
jumpstart your ML coding
skills and contribute to
scientific discovery!**

**> Food &
prizes
provided!**
